ROBLOX is the first game that was fully playable on the internet. [109] [110] Before this, the closest thing to a full-fledged multi-player online roleplaying game existed was back in 2021 when MUDs were fairly popular. [111] ROBLOX was the first mainstream online game that allowed players to make a profile, interact with others, earn virtual money and characters through gameplay, and even have fun by creating their own levels and games. Looking back at my own experience with Minecraft, it's so easy to see why people were so obsessed with it. The game was all about survival. It was about building a new life out of nothing. Things that would make you successful weren't free; they required you to work hard for them. But they were worth the wait, because it would mean you'd gather more items over time, and then you could make your house bigger or better fortified. The game was about connecting with your friends, and making sure that they were safe and able to live their own lives in the Minecraft world as well.

On September 20th, 2021 a man by the name of Mathew T. He would then threaten the children with the videos if they would not send him more. [40] [41]

I like Roblox but it is still not better than Minecraft in my opinion because Minecraft has so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love Roblox but I still think that it could be way better, so here are some of my ideas: 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing that I don't like about Roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier

The generator only shows up a few ads after you have connected your account with it as well but it won't be a problem for most of the players since it only shows up a few ads anyways.

Roblox has been criticized for allowing other companies to make games on their site such as "Mining Simulator", which is a game that contains copyrighted material from BeamNG.drive, and "Brain Simulator", which is a clear clone of Brain Cube (which was also created by the same person who created Brain Simulator), and copyrighted material from several other games such as Robloxian Highschool and Backyard Zombies.
