On July 6, 2021 (8:00 PM), ROBLOX released a new website design. The new design was created to give users easier access to ROBLOX's games, forums, groups, etcetera. The design got a lot of criticism from users who preferred the old one, but eventually it was adopted as the more popular choice.

ROBLOX has also been criticised for lacking any kind of quality assurance for its games. There have been many issues with the quality of some games and many users have complained that their game descriptions are not accurate. The site is also frustratingly inconsistent in the manner it deals with things like this, often banning users who complain about bugs and glitches within their games but not actually banning anyone who commits an illegal act, such as copying someone else's game and selling it without permission.

ROBLOX is doing its best to make sure that its users stay safe while playing games. First, ROBLOX has safety features in place. A "report user" button is at the bottom right of every player's screen. This button appears if someone is acting rude to you in a game. Pressing it leads you to a page where you can add as much detail as you can about what happened and why it was wrong. The person reading the complaint will then investigate the situation and take necessary actions towards offending players. Players have also found ways to use this button for wrong reasons, like falsely reporting users to get them banned from playing ROBLOX.
